

641—101.8(144) Extension of time. If the attending physician or medical examiner is unable to complete the medical certification of cause of death or if the funeral director is unable to obtain the personal information about the deceased within the statutory time period, the funeral director shall file a death certificate form completed with all information available. Such certificate shall be authority for the county registrar to issue a burial-transit permit. As soon as possible, but in all cases within 15 days, a supplemental report shall be filed with the local registrar providing the information missing from the original certificate.
